

# Safety Maintenance Management Council Fundamental Engine Electronics Training Course

February 3-4, 2021 Tonawanda, NY

**When**

February 3-4, 2021  
8:00 a.m.-4:00 p.m. each day

**Where**

O&K Truck Repairs, Ltd.  
350 Grand Island Blvd.  
Tonawanda, NY 14150

**Cost**

TANY Members: \$400 pp  
Non-members: \$500 pp  
Lunch will be provided.

**Instructor**

Swede Oun,  
Certified Master Trainer  
O&K Truck Repairs, Ltd.

**Registration Deadline**

January 27, 2021  
Class size is limited. COVID  
precautions will be practiced.

**Course Objective:**

This course provides the fundamental electrical principles and hands-on experience necessary to diagnose and repair vehicle systems. Technicians will develop a practical knowledge of electricity, while learning to understand electrical systems and operations, identify electrical components and functions, and diagnose vehicle electrical problems.

**The two-day course will include training in:**

Electrical circuits, battery systems, charging systems, starting systems and meter usage, with significant emphasis on meter usage.

*\*Participants with a Digital Volt-Ohm Meter (DVOM)  
should bring it for use in the course.*

**Certification in Fundamental Engine Electronics Training is  
provided upon successful completion of the course.**
