## **Instructor**

Swede Oun,  
Certified Master Trainer  
O&K Truck Repairs, Ltd.

## **Registration Deadline**

January 20, 2021  
Class size is limited. COVID  
precautions will be practiced.

## **Course Objectives:**

- Enable the in-service heavy vehicle technician to service, repair, maintain and diagnose major types of heavy vehicle brake systems;
- Introduce heavy vehicle brake system theory, operation, and inspection to the in-service technician;
- Define, generically, the various types of braking systems; and
- Convey to the technician the importance of proper brake servicing.

## **The two-day course will include training in:**

- All aspects of a heavy duty brake system
- All modules, including ABS module and ABS training
- Factors which control vehicle stopping
- Brake regulations
- Braking system types
- Air brakes
- Air valves
- Construction of foundation brakes
- Brake actuating mechanisms

**Certification in Brake Repair is provided upon successful completion of the course.**
